To the FDA:

I send this letter as a consumer of health care services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

The Memorandum of Understanding is a direct threat to the art of pharmacy compounding and is of concern to every consumer of health care services and products. The FDA is an agency of the U.S. Government that purports to be the "watchdog" for the consumer. However, as a government agency, the FDA also has a responsibility to be accountable to the people.

The MOU must be amended. In its present form, the MOU severely restricts my rights as an individual to obtain the health care services and products from the provider of my choice. The MOU should be amended so that there are no restrictions to the delivery of a compounded medication prescribed for me, regardless of where I may live or may travel.

Sincerely,

Martha C. Christian
